# Abstract Instruction for Case Report / Series

1. Abstract title in sentence case, bold the entire title and avoid abbreviation.

Example: **This is a properly formatted title: a case report**

2. List of author(s), institution(s), city, and country should be written immediately below the title. Institute(s), city, and country should be written in *Italic* and Authors name should be listed by initials followed by family name only. First author name should be underlined.

Example: E. J. Topol<sup>1</sup>, P. Libby<sup>2</sup>, <sup>1</sup>*Faculty of Medicine, Universitas Indonesia, Jakarta, Indonesia;* <sup>2</sup>*National Cardiovascular Center Harapan Kita, Jakarta, Indonesia*

# Abstract Instruction for Case Report / Series

3. Oxford English Spelling

4. Times New Roman font, font size 12, use Symbol for the Greek and special characters. SI units of measurement should only be used, double-spaced, margin 2.5cm on all sides

5. The abstract including keyword **should not exceed 250 words**, excluding titles and authors. Due to strict word limitation, you are advised to allocate those words into 25% for background, 50% for case description, and 25% for discussion and keywords. **3-6 keywords should be provided** at the end of your abstract.

**6. Title:** It should be self-explanatory, so the reader can get a grasp of the abstract content. However, for submission purposes, your abstract title should not be changed in this revision.

# Abstract Instruction for Case Report / Series

- 7. Background:** Be concise and straightforward. Avoid adding unnecessary introduction which does not contribute to the purpose of your abstract.
- 8. Case description:** This should be the major point of the abstract. Describe the case accordingly which describe the main purpose of your study. Avoid inserting unnecessary data which does not directly contribute to the main objective. For example, stressing to much diagnostic procedure in an abstract that focus on therapeutic challenge.
- 9. Discussion:** Should corresponds with the main objective of your abstract as stated on the title. Discuss the topic correlating with the case and title described earlier. Avoid making a literature review which does not directly correlate with the case, e.g citing the guideline without any direct connection or correlation to the case. Avoid the urge to discuss focus topic which is not related to the title.

# Abstract Instruction for Case Report / Series

**10. Maximum number of authors** is up to 4 and 8 authors for case report and series, respectively.

**11. Supported file formats** are **word document (.doc or .docx)**

**12. Informed consents are not to be submitted**, instead held by the treating institutions following local guideline. \*Should be made available to journal editors if specifically requested.
